Blind Box Vending Machine

FCV-NSC-8N(V22)-DW(AA) Blind Box Vending Machine

TECHNICAL OVERVIEW | FCV-NSC-8N(V22)-DW(AA)

This blind-box configuration combines pusher slots with a documented vertically and horizontally moving elevator. A22-inch touchscreen supports the illustrated shopping-cart flow. The showcase is separate from collection. Exact lane loading, cabinet dimensions,mass and electrical schedule are not published on the inspected DW(AA)page. Its identical primary photograph also appears on the base NSC-8N(V22)listing; no separate chassis is inferred.

Model summary

FCV catalogue reference	FCV-NSC-8N(V22)-DW(AA)
Category	Blind Box Vending Machine
Screen	22 inch
Touchscreen	22-inch HD touchscreen

Documented equipment features

- Exact graphic identifies pusher slots and vertical/horizontal elevator.

Published source configurations

These source descriptions are kept separate. They do not establish that every value belongs to one supplied unit; the FCV quotation identifies the accepted configuration.

Configuration 1

Source model: FCV-NSC-8N(V22)-DW(AA) / 1

Original page parameters are retained as their own source schedule. Compare any additional layout evidence separately.

Touchscreen	22-inch HD touchscreen

Configuration 2

Source model: FCV-NSC-8N(V22)-DW(AA) / 2

Exact DW(AA) artwork labels Pusher slot, steady delivery and Vertical & Horizontal elevator. The page describes shopping-cart purchase and a lower PUSH collection opening.

Pusher slots	The packaged product is advanced from its configured storage position by a pusher.
Two-axis elevator	The supplier graphic explicitly identifies vertical and horizontal elevator movement between storage and collection.
Showcase and collection	The display showcase is separate from the collection opening and is not a documented extra storage tier.

Illustrative FCV-branded concept render. Verify the quoted physical configuration.

Configuration and quotation

Specifications reflect the cited source configuration. Optional accessories and alternative configurations are not included as standard unless explicitly identified in the quotation. Confirm payment hardware, power requirements, installation access and service scope for the intended site. No price, stock quantity, delivery date or certification is implied by this overview.

Configuration details to confirm

Optional features, certifications and service terms must be confirmed for the quoted configuration.

No numeric lane count or per-lane blind-box capacity is established.

Available payment hardware and wallet/card compatibility depend on the quoted controller and payment-provider configuration; supplier examples are not universal FCV inclusions.

ExactDW(AA)installation schedule missing.

Same primary photo as 101;separate chassis not established.

Payment providers,software licences,warranty and accessories require the written quotation; supplier examples are not universal FCV inclusions.

Blind-box pusher and two-axis elevator layout

Exact DW(AA) artwork labels Pusher slot, steady delivery and Vertical & Horizontal elevator. The page describes shopping-cart purchase and a lower PUSH collection opening.

Storage / equipment zone	Documented source layout
Pusher slots	The packaged product is advanced from its configured storage position by a pusher.
Two-axis elevator	The supplier graphic explicitly identifies vertical and horizontal elevator movement between storage and collection.
Showcase and collection	The display showcase is separate from the collection opening and is not a documented extra storage tier.

- Select one or more configured products using the displayed purchase flow.
- The pusher and vertical/horizontal elevator transport the selected pack.
- Retrieve the item from the lower collection opening.

Configuration details

Prepared 27 November 2026 for the FCV product catalogue. Confirm the supplied configuration and site requirements with the FCV team before ordering.

Configuration confirmation

Some equipment configuration details require further confirmation. The catalogue entry is not proof of current FCV stock or a completed site-specific technical acceptance. Unknown fields remain unverified.

Product information

This FCV technical overview describes the listed equipment configuration. The written quotation confirms the machine, accepted product packs, accessories and service scope supplied for your location.

Confirm before purchase

Ask FCV for the exact model and revision, supplied options, current technical sheet, site suitability, warranty, maintenance scope and written commercial terms. Product images, where present, are conceptual branded renders rather than installation evidence.
