Ice Cream Vending Machine

FCV-ICEC-133(32HP) Ice Cream Vending Machine

TECHNICAL OVERVIEW | FCV-ICEC-133(32HP)

This landscape soft-serve listing contains two incompatible source schedules. Its artwork shows a 32-inch landscape display and a cabinet 1800 mmhigh,1208 mmwide and 855 mmdeep; the HTML table instead gives 22-inch,740 mmwidth and 800 mmdepth. Standard and upgraded milk, jam and nut arrangements are described separately, but must not be used to resolve the cabinet conflict. Confirm the exact physical configuration before relying on the installation dimensions.

Model summary

FCV catalogue reference	FCV-ICEC-133(32HP)

Published source configurations

These source descriptions are kept separate. They do not establish that every value belongs to one supplied unit; the FCV quotation identifies the accepted configuration.

Configuration 1

Source model: FCV-ICEC-133(32HP) / 1

Original page parameters are retained as their own source schedule. Compare any additional layout evidence separately.

Dimension	H:1800mm W:740mm D:800mm
Weight	260KG
Flavor	1 Fresh milk *3 Jam *1Nut(Standard version) 1 Fresh milk *3 Jam *3Nut(Upgraded version)
Cups	About 90 cups
Voltage	AC100V-240V,50HZ/60HZ
Power	Max 1800W,Standard less than 200W
Screen	22 inches HD Touch Screen
Payment system	Bill/Coin/Credit card(Optional)

Configuration 2

Source model: FCV-ICEC-133(32HP) / 2

The linked model pages describe a standard configuration of one fresh-milk circuit, three jam circuits and one nut circuit. They separately describe an upgraded configuration with one fresh-milk circuit, three jam circuits and three nut circuits; about 90 cups is stated.

Standard ingredient arrangement	One fresh-milk, three jam and one nut circuit in the published standard configuration.
Upgraded ingredient arrangement	One fresh-milk, three jam and three nut circuits in the separately described upgraded configuration.

Cup finishing and pickup	Milk, jam and nut finishing are illustrated, with automatic collection and anti-pinch door.
Cleaning functions	The page identifies thawing and one-button cleaning; service procedure and ingredient sanitation require the actual operating manual.

Configuration 3

Source model: FCV-ICEC-133(32HP) / 3

Alternative source-listed finishing configuration; not combined or a hopper-volume statement.

Fresh-milk circuits	1
Jam circuits	3
Nut circuits	1

Configuration 4

Source model: FCV-ICEC-133(32HP) / 4

Alternative source-listed finishing configuration; not combined or a hopper-volume statement.

Fresh-milk circuits	1
Jam circuits	3
Nut circuits	3

Configuration 5

Source model: FCV-ICEC-133(32HP) / 5

Exact source schedule retained separately; values do not establish a distinct manufactured revision unless identified by the supplier.

Dimensions (H × W × D)	1800 × 740 × 800 mm
Display	22 inch

Configuration 6

Source model: FCV-ICEC-133(32HP) / 6

Exact source schedule retained separately; values do not establish a distinct manufactured revision unless identified by the supplier.

Dimensions (H × W × D)	1800 × 1208 × 855 mm
Display	32 inch

Illustrative FCV-branded concept render. Verify the quoted physical configuration.

Configuration and quotation

Specifications reflect the cited source configuration. Optional accessories and alternative configurations are not included as standard unless explicitly identified in the quotation. Confirm payment hardware, power requirements, installation access and service scope for the intended site. No price, stock quantity, delivery date or certification is implied by this overview.

Configuration details to confirm

This source is outside the current category navigation; current supply/configuration requires confirmation.

Multiple official application/configuration listings share this published reference; this page records their grouped identity without asserting a unique new chassis.

Optional features, certifications and service terms must be confirmed for the quoted configuration.

Standard and upgraded topping circuits are alternatives, not one combined ingredient count.

About 90 cups is not a documented mix-reservoir volume.

The landscape cabinet artwork states 32-inch while HTML says 22-inch; cabinet width/depth also differ. Keep separate configurations.

Soft-serve ingredient circuits and cup collection

The linked model pages describe a standard configuration of one fresh-milk circuit, three jam circuits and one nut circuit. They separately describe an upgraded configuration with one fresh-milk circuit, three jam circuits and three nut circuits; about 90 cups is stated.

Storage / equipment zone	Documented source layout
Standard ingredient arrangement	One fresh-milk, three jam and one nut circuit in the published standard configuration.
Upgraded ingredient arrangement	One fresh-milk, three jam and three nut circuits in the separately described upgraded configuration.
Cup finishing and pickup	Milk, jam and nut finishing are illustrated, with automatic collection and anti-pinch door.
Cleaning functions	The page identifies thawing and one-button cleaning; service procedure and ingredient sanitation require the actual operating manual.

- Choose a recipe supported by the installed ingredient configuration.
- The machine prepares and finishes the cup through its milk, jam and nut circuits.
- Collect through the opening after the preparation cycle completes.

Configuration details

Prepared 27 November 2026 for the FCV product catalogue. Confirm the supplied configuration and site requirements with the FCV team before ordering.

Configuration confirmation

Some equipment configuration details require further confirmation. The catalogue entry is not proof of current FCV stock or a completed site-specific technical acceptance. Unknown fields remain unverified.

Product information

This FCV technical overview describes the listed equipment configuration. The written quotation confirms the machine, accepted product packs, accessories and service scope supplied for your location.

Confirm before purchase

Ask FCV for the exact model and revision, supplied options, current technical sheet, site suitability, warranty, maintenance scope and written commercial terms. Product images, where present, are conceptual branded renders rather than installation evidence.
